ELECTRIC RADIATOR WITH TOP CONTROLS AND FLUID INERTIA. A DESIGN THAT BLENDS INTO ANY ENVIRONMENT, AND A TECHNOLOGY THAT GUARANTEES THE MAXIMUM COMFORT CONTROLLED REMOTELY THROUGH THE DELTACALOR COMFORT APP

COLORS AVAILABLE 

TECHNICAL FEATURES

- Thanks to the Deltacolor Confort application, the radiators can be controlled and programmed remotely
- Personalized comfort room by room: the app informs you about the room temperature and therefore you can adjust the desired temperature for each room.
- Smart heating scheduling: set a program according to your lifestyle. Choose the time and rooms you want to heat.
- Monitoring of consumption: Deltacolor Confort helps you improve your energy efficiency. Check through the App the history of the electrical

consumption of the radiators of each room in kWh and optimize your heating program.

- Fluid electric radiator
- Aluminium body, straight shape
- Heating element in stainless steel
- Touch screen digital controls in the high shoulder integrated with the radiator body with LED screen with WIFI DIRECT HOME AUTOMATION (direct connection to the home router without auxiliary bridges).
- Wi-Fi thermostat compatible with Amazon Alexa and Google Assistant. It therefore allows heating control via voice commands.
- Comfort, Eco, Frost and Stand-by modes
- Weekly programming
- ASC - Adaptive start control: to obtain the desired temperature, exactly when you wish
- Window opening detection sensor
- Smart Lock
- Consumer behavioral indicator
- Consumption meter on a daily, weekly, monthly and annual basis
- Adjustment from 0°C to 30°C
- Pilot wire 6 orders
- Available in 3 powers
- Quick and easy installation thanks to the kit for wall mounting included.
